- 1. 14 June 1996 The President's Radio Address

We were the second to last family to speak with the President. In our family photo, my father and step-mother are to the President's right and my and I are to his left. We spoke with him for a few minutes before the posed photo and it was within those few minutes that Bob and the other photographer were clicking away. In particular, I would love to get a copy of the picture of my brother shaking the President's hand.

- 3. 17 November 1995 (during the furlough)

Bob McNeely took a picture of me with the President in Mr. Panetta's outer office. I was wearing a red suit jacket with a black collar and black pants. Bob had misplaced the film or contact sheet for a long, long while! Billie Shaddix kept checking for me if it ever appeared in the book, as we thought it was stuck in Bob's office somewhere. Maybe it is there now?????

no film

- 4. 30 January 1996 Pat Griffin's, former Assistant to the President for LA, retirement party in the COS's office

Sharon Farmer took a couple of group shots of the Leg Affs staff with the President. I was wearing a black suit standing in the back row.
